

Dear US Gov't:

I am satisfied with the current protection offered by the 'do not call'list kept by the state of Indiana. I did register and am on it.

I do not want any Indiana protections undone by a less protective federal law or regulation.

I do NOT want any party to start calling me just because I've done business with them in the past.

Indeed, I really don't want any commercial phone solicitations at all.

Thank you for taking my comments and request,

David Mesard
